

Great Barrier Reef - Wastewater Grant Program 2026 - Tier 1 Form Preview

Eligibility Checklist

* indicates a required field

This Application Form is for Tier 1 applicants seeking up to \$4,000,000 in funding for projects of up to three years.

⚠ Before completing this application form for the Great Barrier Reef Urban Technology and Innovation Fund - Wastewater Grant Program (the Program) you are required to:

- read and ensure that you understand the [Program Guidelines](#)
- complete the checklist below to ensure you meet the eligibility criteria.

The [Program Guidelines](#) and [Frequently Asked Questions](#) are available on the [Program webpage](#).

Applicant Organisation Eligibility

Does the applicant organisation have an ABN? *

- Yes No

Is the applicant organisation registered for GST? *

- Yes No

What type of organisation is the applicant? *

- university
 Research and Technology Organisation
 proprietary wastewater treatment system company
 water utility company that invests in wastewater treatment research and development
 local government organisation or National Resource Management organisation within the Reef catchment acting as auspice for one of the above organisations

The applicant organisation MUST be one of these organisation types.

Has the applicant organisation committed a cash contribution to the project that is at least double the amount of Program funding sought? *

- Yes No

Does the applicant organisation have any overdue project acquittals or any other outstanding contractual obligations for state or federal government funding? *

- Yes No

Is the applicant organisation subject to any legal proceedings or financial audit investigation processes? *

- Yes No

Great Barrier Reef - Wastewater Grant Program 2026 - Tier 1 Form Preview

Project Eligibility

Does the applicant organisation have: *

- the ability to host the trial project on its own site within a Reef catchment* or the receiving environment adjacent an existing wastewater treatment plant located in a Reef catchment*
- an agreement with a local government partner to host the trial project on a site within the Reef catchment* or the receiving environment adjacent an existing wastewater treatment plant located in a Reef catchment*?

*Reef catchment means a catchment area of the Great Barrier Reef as detailed in the Great Barrier Reef Urban Technology and Innovation Fund - Wastewater Grant Program Guidelines.

Within which Reef catchment is your project site located? *

Projects located in the priority catchments of Barron, Plane Creek and Ross will be considered favourably.

Is the proposed wastewater treatment solution or management approach proven to deliver end of pipe nutrient concentrations - specifically nitrogen concentrations - within the range associated with defined leading practice levels 1 to 3? *

- Yes
- No

Refer to Program Guidelines for more information on defined best practice levels.

Is the proposed wastewater treatment solution or management approach a novel and affordable way of allowing or enhancing wastewater recycling/beneficial reuse or removing nutrients from receiving waters? *

- Yes
- No

Is the proposed wastewater treatment solution affordable relative to the cost of building or operating a traditional-engineered, advanced wastewater treatment system? *

- Yes
- No

Is the proposed project ready to commence by 1 March 2027, and complete within three years (including completing the monitoring and evaluation of the operational phase)? *

- Yes
- No

Have all actual, perceived and/or potential conflicts of interest in relation to the proposed project been declared and is a management plan in place for all identified conflicts of interest? *

- Yes
- No

Eligibility Outcome

⚠ Based on your responses, your organisation or project is NOT eligible to apply for funding under Tier 1 of the Great Barrier Reef Urban Technology and

Great Barrier Reef - Wastewater Grant Program 2026 - Tier 1

Form Preview

Innovation Fund - Wastewater Grant Program. ⚠Do not proceed with completing the Application Form as ineligible applications will not be progressed for assessment.

Applicant and Partner Organisations

* indicates a required field

Applicant Organisation

The applicant organisation is the legal entity that will enter into a funding agreement with the Queensland Government should this application for funding be successful.

Applicant organisation ABN *

The ABN provided will be used to look up the following information. Click Lookup above to check that you have entered the ABN correctly.

Information from the Australian Business Register	
ABN	
Entity name	
ABN status	
Entity type	
Goods & Services Tax (GST)	
DGR Endorsed	
ATO Charity Type	More information
ACNC Registration	
Tax Concessions	
Main business location	

Must be a valid ABN, not ACN.

Applicant organisation (as per entity name above) *

Organisation Name

Trading as (if applicable, as per ABR)

Organisation Name

Applicant organisation type *

Other:

Great Barrier Reef - Wastewater Grant Program 2026 - Tier 1 Form Preview

Select from the drop down list.

Is the applicant organisation an Indigenous business? *

For the purpose of this program the Queensland Government defines an Indigenous business as one that is at least 50% owned by an Aboriginal person and/or a Torres Strait Islander person.

Is the applicant organisation a female or female led business? *

For the purpose of this program, a female business is one that is at least 50% female owned and/or led i.e. female(s) leading the organisation in roles such as CEO, Director, Executive.

Is the applicant organisation headquartered outside of South-East Queensland? *

For the purpose of this program "South-East Queensland" is any location in the following council areas - of Brisbane City, Gold Coast City, Ipswich City, Lockyer Valley Regional, Logan City, Moreton Bay Regional, Noosa Shire, Redland City, Scenic Rim Regional, Somerset Regional, and Sunshine Coast.

Provide a brief overview of the applicant organisation *

Word count:

Must be no more than 25 words.

Is the applicant organisation partnering with any other organisation(s) to deliver the project? *

Yes No

Applicant Headquarters Address

Address *

Address

Great Barrier Reef - Wastewater Grant Program 2026 - Tier 1 Form Preview

Address Line 1, Suburb/Town, State and Postcode are required. (Identifiers such as Unit/Lot/Building/Level etc. are not accepted).

Applicant Organisation Key Contact

Who is leading the project on behalf of the applicant organisation?

Lead Project Contact *

Project Summary

Project Title *

Word count:

Maximum 10 words. If the application is successful, this title will be published.

Total grant funding amount requested

This amount is automatically calculated from the budget section.

Great Barrier Reef - Wastewater Grant Program 2026 - Tier 1 Form Preview

Project Duration *

- Two years
- Three years

Ensure you allow time for the construction phase AND the operational monitoring phase when selecting the project duration.

Brief Project Description

The project description should be succinct and clearly explain the proposed wastewater treatment solution or management approach i.e. a short elevator pitch that:

- describes the proposed wastewater treatment solution or management approach
- outlines why it is innovative, new and unique
- details the expected outcomes of the proposed project.

△ **If your application is successful, this information will be used for internal departmental briefing and potential publication.**

△ **Ensure that this statement is free of any technical/industry specific jargon and commercially sensitive information.**

*

Word count:

Must be no more than 150 words.

If the application is successful, this project description will be published.

Briefly outline the key outcomes you expect to have achieved by project completion *

Word count:

Must be no more than 100 words.

Project Location/Site

If the project location is the same as the applicant organisation address, please input the same address as above.

Street number and name *

Suburb *

Great Barrier Reef - Wastewater Grant Program 2026 - Tier 1 Form Preview

Postcode *

Must be a number.

State *

Input location state for this project

Is the project location a site owned by the applicant organisation? *

Yes

No

Provide details of site ownership and the agreement in place regarding hosting the project *

Word count:

Must be no more than 50 words.

Attach a letter from the site owner confirming the agreement to host the project trials *

Attach a file:

1 file must be attached.

The letter must be signed by the CEO of the organisation or the landowner.

Previous Funding (if applicable)

Has the applicant organisation and/or any of the partner organisations been awarded and/or received any state, federal, local government or private funding within the past five years to assist in the development or commercialisation of the wastewater treatment solution or management approach? *

Yes

No

Provide details of the state, federal, local government and/or private funding received in the past five years.

Use 'Add More' to enter multiple funding sources.

Funding Source *

Other:

Status *

Name of Funding / Program *

Year of Award *

Assessment Criteria 1 - The wastewater treatment solution or management approach is innovative and proven at or beyond the functional prototype stage

* indicates a required field

(1.1) Provide a brief history of the development of your wastewater treatment solution or management approach including the amount of time it has taken to reach this point. *

Word count:

Must be no more than 250 words.

(1.2) Describe the wastewater treatment solution or management approach you are commercialising. Include details of the core technology behind the innovation and explain how this technology supports the functionality and uniqueness of the final product. *

Word count:

Must be no more than 250 words.

(1.3) Outline the type and scope of research undertaken to identify any other similar solutions/approaches that are already in the market. Detail the key findings and evidence that demonstrates that your approach is innovative, unique and new. *

Word count:

Must be no more than 250 words.

(1.4) What is the current status of the intellectual property in the product or service you are commercialising? *

(1.5) Applicants must demonstrate, at the time of application, that they have a wastewater treatment solution or management approach that is at working

functional prototype stage and is ready to be validated and tested in a relevant industrial and/or operational environment.

△ **For the purpose of the Program, a functional prototype is:**

- **a working integrated model that demonstrates the core functionalities and features of the product or service**
- **built to test and validate the technical aspects and performance of the product or service**
- **not already in the market.**

Referring to the definition of ‘functional prototype’ above, explain and justify how your wastewater treatment solution or management approach has reached the functional prototype stage. *

Word count:

Must be no more than 250 words.

(1.6) Explain how and why your wastewater treatment solution or management approach is affordable, relative to the cost of building or operating a traditional-engineered, advanced wastewater treatment system. *

Word count:

Must be no more than 250 words.

(1.7.1) Provide an explanation of how the wastewater treatment solution or management approach reduces nitrogen in receiving waters to a concentration within the range of defined leading best practice levels 1 to 3. *

Word count:

Must be no more than 250 words.

Refer to Program Guidelines for more information on defined best practice levels.

(1.7.2) Explain how your wastewater treatment solution or management approach can achieve treatment levels that allow or enhance wastewater recycling/beneficial reuse. *

Word count:

Great Barrier Reef - Wastewater Grant Program 2026 - Tier 1 Form Preview

Must be no more than 250 words.

Refer to Program Guidelines for more information on considerations regarding affordability.

(1.8) Attach a document of no more than two pages to present a visual illustration of your wastewater treatment solution or management approach (for example, photos of your product, a concept design, and/or a process flowchart of how your service integrates with existing wastewater treatment infrastructure and/or processes). *

Attach a file:

1 file must be attached.

(1.9) OPTIONAL. If your website will provide the assessment panel with an insight into your wastewater treatment solution or management approach, provide the web address.

Must be a URL.

Assessment Criteria 2 - The project is feasible and viable

* indicates a required field

Project Plan

⚠ IMPORTANT

In completing this section, ensure that you include:

- the remaining planning and design steps to be undertaken
- a clear pathway to gaining the permits required for the operational trials, (within six months of project commencement)
- the construction work that is required
- details of the demonstration, validation, testing and/or accreditation activities to be undertaken
- any activities to be undertaken to engage with new potential customers/markets.

Ensure that all activities included are eligible under the Program.

⚠ ELIGIBLE ACTIVITIES are:

- planning and design
- obtaining approvals and permits
- construction
- trial operations
- data analysis and synthesis, including reporting
- marketing, communication and engagement required for commercialisation
- monitoring and evaluation
- administration of the project (must not exceed 15% of the grant funding allocation).

△ DETAILED PROJECT PLAN AND DESIGN

If this application is successful, a detailed project plan, including a detailed design, will be required as an early project milestone deliverable.

(2.1) Outline the plan to progress your wastewater treatment solution or management approach towards market readiness. *

Word count:
Must be no more than 400 words.

Commercialisation Plan

(2.2) Briefly outline your longer-term plan for the wastewater solution or management approach, including:

- how and when you expect it to be operating commercially
- which market(s) you expect to target and size of the market(s)
- anticipated business model to be employed.

*

Word count:
Must be no more than 250 words.

Assessment Criteria 2 - The project is feasible and viable (continued)

* indicates a required field

Project Activities and Outcomes

Projects must be no longer than three years. Grant recipients are required to report on progress at six monthly (or less) intervals.

△ **Guide for completion:**

Great Barrier Reef - Wastewater Grant Program 2026 - Tier 1 Form Preview

- Each milestone should have three to seven dot points describing the key project activities and outcomes for each stage of the project with numbers, targets or rates of completion, where possible.
- Outcomes should be tangible and measurable and relate to the planned activities but not be a restatement of them.
- Ensure the planned project activities and outcomes align with your project plan (above).
- When outlining the planned project activities and outcomes, assume that your project will not commence before 1 January 2027.

As a guide, the following are EXAMPLES of the type of activities and outcomes that may be relevant to your project.

Activity 1 - Prepare detailed project plan and detailed design.

Outcome 1 - Completion of detailed project plan and detailed design (to the satisfaction of the Department).

Activity 2 - Identify the permits required for the operational trials and submit required applications.

Outcome 2 - Necessary permits for operational trials secured.

Activity 3 - Commence collection of water quality samples in situ at the trial site and engage a specialist testing/research organisation to analyse these in an accredited lab.

Outcome 3 - Documented validation of the wastewater treatment solution/management system technical strengths and capabilities with respect to nitrogen reduction.

Activity 4 - Engage third-party services to monitor and evaluate the costs of building and operating the treatment system/management solution.

Outcome 4 - Detailed cost models providing insights into opportunities for cost savings relative to those of a traditional engineered, advanced wastewater system.

Activity 5 - Obtain specialist legal advice on the intellectual property protections required to test and demonstrate the product with potential customers.

Outcome 5 - Intellectual property protections implemented to enable the testing and product demonstrations to commence.

Activity 6 - Document case studies outlining the performance of the treatment system/management solution in relation to nitrogen reduction and affordability, clearly noting the situations it applies to.

Outcome 6 - Completion of key promotional material for the wastewater treatment system/management solution.

△ **Applicant Acknowledgement ***

○ I understand and acknowledge that, should the application for funding be approved, the information in this section will form part of the funding agreement, with progress reporting of these activities and outcomes required to acquit each milestone grant payment.

Milestone 1

(2.3.1) Milestone 1 - List the PROJECT ACTIVITIES planned for the first reporting period of the project. *

(2.3.2) Milestone 1 - List the PROJECT OUTCOMES you expect to achieve during the first reporting period of the project. *

Milestone 2

(2.3.3) Milestone 2 - List the PROJECT ACTIVITIES planned for the second reporting period of the project. *

(2.3.4) Milestone 2 - List the PROJECT OUTCOMES you expect to achieve during the second reporting period of the project. *

Milestone 3

(2.3.5) Milestone 3 - List the PROJECT ACTIVITIES scheduled for the third reporting period of the project *

Word count:

(2.3.6) Milestone 3 - List the PROJECT OUTCOMES you expect to achieve during the third reporting period of the project *

Milestone 4

(2.3.7) Milestone 4 - List the PROJECT ACTIVITIES scheduled for the fourth reporting period of the project *

Word count:

(2.3.8) Milestone 4 - List the PROJECT OUTCOMES you expect to achieve during the fourth reporting period of the project *

Word count:

Milestone 5

(2.3.9) Milestone 5 - List the PROJECT ACTIVITIES scheduled for the fifth reporting period of the project *

Word count:

(2.3.10) Milestone 5 - List the PROJECT OUTCOMES you expect to achieve during the fifth reporting period of the project *

Word count:

Milestone 6

(2.3.11) Milestone 6 - List the PROJECT ACTIVITIES scheduled for the sixth reporting period of the project *

Word count:

(2.3.12) Milestone 6 - List the PROJECT OUTCOMES you expect to achieve during the sixth reporting period of the project *

Word count:

Assessment Criteria 2 - The project is feasible and viable (continued)

* indicates a required field

Expenditure and Funding (Tier 1)

Funding of up to \$4,000,000 is available for projects with a duration of up to three years with the requirement that the applicant organisation and any projects partner(s) match this with a cash contribution of at least double the requested grant amount.

Outline the expected cost of project activities.

△ In completing this section, you should ensure that you:

- align the planned expenditure with the project plan detailed in question 2.1, the commercialisation plan, detailed in question 2.2 and the milestone activities detailed in question 2.3
- list all activity / expenditure items individually (use 'Add More' to add new lines)
- provide short and succinct information for the proposed activity / expenditure items
- select the relevant activity / expenditure type from the list of options
- attribute the source(s) of funding for each expenditure item, i.e. Program funding and applicant/partner organisation contribution.

△ The Program funding and the applicant/partner organisation contribution may be used for the following eligible project costs:

- salary expenditure (including salary-related on-costs) for employees of the applicant (and/or partner) organisation directly contributing to the delivery of the project
- services provided by (unrelated) external parties
- equipment, materials and consumables
- domestic travel, accommodation and subsistence for employees and contractors required specifically for the delivery of the project.

and must be related to project specific operational trial and commercialisation activities as follows:

- planning and design
- obtaining approvals and permits
- construction
- trial operations
- data analysis and synthesis, including reporting
- marketing, communication and engagement required for commercialisation
- monitoring and evaluation
- administration of the project (must not exceed 15% of the grant funding allocation).

Expenditure Items / Activities

(2.4) SALARIES OF PROJECT STAFF

If the project budget involves employing a person:

- list the position and the project-related activities and responsibilities the role will have
- indicate if the position is employed by the applicant or partner organisation
- identify the amount and source of funding to be allocated to the position
- use the add more button to provide details for each position involved in the project.

Position and Role in Project	Employer	Program Funding	Expenditure Type	Applicant Cash Contribution	Partner Cash Contribution
		\$		\$	\$

(2.5) SERVICES PROVIDED BY (UNRELATED) EXTERNAL PARTIES

Expenditure Item	Expenditure Type	Program Funding	Applicant Cash Contribution	Partner Cash Contribution
		\$	\$	\$

(2.6) EQUIPMENT, MATERIALS AND CONSUMABLES

Expenditure Item	Expenditure Type	Program Funding	Applicant Cash Contribution	Partner Cash Contribution
		\$	\$	\$

(2.7) DOMESTIC TRAVEL, ACCOMMODATION AND SUBSISTENCE

Great Barrier Reef - Wastewater Grant Program 2026 - Tier 1 Form Preview

Expenditure Item	Expenditure Type	Program Funding	Applicant Cash Contribution	Partner Cash Contribution
		\$	\$	\$
				Must be a dollar amount.

Expenditure and Funding Summary

(2.8) This section is auto-calculated.

Program Funding Requested	Applicant Cash Contribution	Partner Cash Contribution	Total Project Cost
\$	\$	\$	\$
This amount is calculated from the entries above and must be no more than \$4,000,000.	This amount is calculated from the entries above.	This amount is calculated from the entries above.	(Program funding + applicant cash + partner cash)

Applicant and Partner Cash Contribution

(2.9) Total Applicant and Partner Cash Contribution

 Must be at least double the Program funding sought

Matched Contribution

 Per \$ of Program funding sought.
 Must be a minimum of 2.

How will the applicant and partner organisations fund their cash contributions to the project? *

- cash on hand
- loan
- from sales revenue
- partner
- investor
- customer
- Other:

 At least 1 choice must be selected.

(2.9) Total Applicant and Partner Cash Contribution

 Must be at least double the Program funding sought

Matched Contribution

 Per \$ of Program funding sought.
 Must be a minimum of 2.

How will the applicant and partner organisations fund their cash contributions to the project? *

- cash on hand
- loan
- from sales revenue
- partner
- investor
- customer
- Other:

 At least 1 choice must be selected.

(2.9) Total Applicant and Partner Cash Contribution

 Must be at least double the Program funding sought

Matched Contribution

 Per \$ of Program funding sought.
 Must be a minimum of 2.

How will the applicant and partner organisations fund their cash contributions to the project? *

- cash on hand
- loan
- from sales revenue
- partner
- investor
- customer
- Other:

 At least 1 choice must be selected.

(2.10) Upload documentary evidence of the applicant organisation's ability to meet its cash commitment to the project.

△ The document must be **SIGNED** and **DATED** from a suitably qualified independent party who is a member of:

- Chartered Accountants Australia and New Zealand, or
- CPA Australia, or
- the Institute of Public Accountants with a Professional Practice Certificate.

*

Attach a file:

1 file must be attached.

Applicant In-kind Contribution

(2.11) Will the applicant organisation contribute any non-cash contributions to the project? *

- Yes
 No

(2.11.1) Outline the in-kind contributions to be made, including:

- description of the contribution
- the equivalent value
- an explanation of how you arrived at the value of the in-kind contribution.

*

Assessment Criteria 2 - The project is feasible and viable (continued)

* indicates a required field

Technical and Management Capability

(2.12) Outline the background and skills of the key personnel that will be leading the project.

Use 'Add More' to enter each of the key personnel involved in the project.

Full Name	Expertise	Source	Contribution to Project
	Other:	Other:	

(2.13) Upload a brief profile of the key project personnel. *

Attach a file:

Merge all documents into ONE PDF file. Must be no more than FIVE pages.

(2.14) Explain how the composition of the management team (knowledge, skills, and experience) will ensure the successful delivery of the project and, following successful delivery of the project, how you will ensure ongoing operational success in the longer term. *

Word count:

Must be no more than 150 words.

(2.15) Briefly outline any external expertise and/or resources (if any) the applicant organisation needs, and explain how the applicant organisation will access these. *

Word count:

Must be no more than 150 words.

Risk Assessment

(2.16) Outline the key project risks and the relevant mitigation plan for each risk identified.

△ Refer to the Risk Matrix in the Frequently Asked Questions to determine the Risk Rating for each risk.

Use the Add More button to enter all risks associated with the project.

Identified Risk	Risk Rating	Mitigation Plan
<input type="text"/>	<input type="text"/>	<input type="text"/>

Assessment Criteria 3 - The project will deliver benefits to the Reef catchment and to Queensland

* indicates a required field

In addressing this assessment criteria, you should ensure that the outcomes of the project are clearly defined and quantified, as far as possible, in terms of economic, social, regional and/or environmental benefits.

In identifying benefits of the project, you should consider:

- **sales and/or revenue from the developed wastewater treatment solution or management approach**
- **direct and indirect employment benefits**
- **its contribution to an increased level of entrepreneurship and innovation**
- **any benefit that will be delivered to regional Queensland**
- **any benefit that will be delivered to Indigenous businesses and/or people**
- **supply chain efficiency / sovereign capability maintenance**
- **reduced requirement for ongoing specialist operation and maintenance personnel**
- **its potential to benefit and/or grow one of Queensland's priority industries**
- **its alignment with and/or contribution to any current Queensland Government policy/industry roadmap/priority industry**
- **other environmental benefits, such as:**
 - **low carbon footprint**
 - **generation of by-products with environmental beneficial uses**
 - **coincidental reduction in contaminants of emerging concern.**

(3.1) Outline the immediate benefits to the Reef catchment of successfully delivering the proposed project. *

Word count:

Must be no more than 350 words.

(3.2) Outline the environmental, social and/or economic benefits for the Reef catchment, the region and/or Queensland, in the longer term. *

Word count:

Must be no more than 400 words.

Primary Industries Classification Data

Great Barrier Reef - Wastewater Grant Program 2026 - Tier 1 Form Preview

* indicates a required field

Primary Industry Classification

The Queensland Government collects data on industries that benefit from funded projects. To assist with our reporting, please select the industry classification which will benefit from your proposed project.

Only one option can be selected from the dropdown list below.

To assist you with your options, refer to the Australian and New Zealand Standard Industrial Classification ([ANZSIC](#)) lookup link.

There are two levels within the ANZSIC hierarchy. Ensure you navigate through to the lowest level to choose an industry option.

Please select the primary industry classification that will benefit from your proposed project: *

[ANZSIC Lookup](#) Click on "Browse" then click on "Primary Industries Classification", then select an option by clicking the relevant industry (not the identifying letter) eg: Agriculture, Forestry & Fishing

Other Priority Industries

Priority Industries - refer to niche or new industry per Queensland Government policies (Industry RoadMap) - To build our competitive strengths, diversify our economy and create the knowledge-based jobs of the future, Advance Queensland is driving innovation-led economic growth through increased collaboration between government, industry and research organisations.

The department collects data on industries that benefit from funded projects. To assist with our reporting, please select the Priority Industry which your proposed project will benefit from.

Only one option can be selected from the dropdown list below.

To assist you with your options, refer to the [Priority Industries Definitions](#) lookup link.

There are two levels within the Priority Industry hierarchy. Ensure you navigate through to the lowest level to choose an industry option.

Please select the priority industry that will benefit from your proposed project: *

[Link to Priority Industries Definitions](#) Click on "Browse", then click on "Priority Industries", then select an option by clicking on the relevant option (not the identifying number) eg: Advance Manufacturing

Enabling Technologies

Enabling Technologies -separate list from the ANZSIC and Priority Industries - this is not an Industry category. This information is required to capture the type of Enabling Technologies used in activities regardless of the industry.

The department collects data on industries that benefit from funded projects. To assist with our reporting, please select the Enabling Technologies that will be used in your project.

Great Barrier Reef - Wastewater Grant Program 2026 - Tier 1 Form Preview

Only one option can be selected from the dropdown list below.

There are three levels within the Enabling Technologies hierarchy. Ensure you navigate through to the lowest level to choose a technology option.

Please specify the main enabling technology used in your project: *

Click on "Browse", then click on a "Sub Category", then select an option by clicking on relevant technology (not the identifying number) eg: Artificial Intelligence

Please advise your enabling technology: *

What is the main type of technology will you provide or use in your project? eg: Autonomous Systems. Input N/A if not applicable

Applicant Declaration

* indicates a required field

On behalf of the applicant organisation:

- **I certify that:**
 - **I am authorised to submit this application on behalf of the applicant organisation**
 - **the information I have supplied in this form is true, accurate and not misleading to the best of my knowledge**
 - **I have completed the Eligibility Checklist, and this has confirmed that the applicant organisation and the proposed project is eligible for the Great Barrier Reef Urban Technology and Innovation Fund - Wastewater Grant Program**
 - **I have reviewed the standard terms and conditions detailed in the [Great Barrier Reef Urban Technology and Innovation Fund - Wastewater Grant Program Funding Agreement template](#) and confirm that I will accept these standard terms and conditions should this application for funding be successful.**

I acknowledge that:

- **the Queensland Government may undertake any checks necessary to assess this application (subject to any written notification as to confidentiality).**

Refer to the [Electronic Transaction \(Qld\) Act 2001](#) prior to acknowledging and accepting this declaration.

Privacy

The Queensland Government is collecting personal information from you such as your name, address, contact details of yourself and your business (including employees and partners), resume, employment and directorship, corporate officer history, payslips, asset and financial information and other information relevant to your application or provided by you.

This information is collected for the purpose of assessing and evaluating your application for funded projects, milestone reports, and otherwise the departments function of supporting businesses and industry through innovation programs and grants.

Personal information may also be disclosed, where required, for purposes associated with undertaking assessment of applications, including due diligence enquiries.

The email address you provide will be used to communicate with you about your application or program participation (if successful). For example, you may be contacted via email about participating in a survey, interview or focus group. Dependent upon the email service provider you have chosen, this may result in your personal information being transferred overseas.

The personal information provided may be provided to other relevant Queensland Government departments and Ministers, to publicly announce or publish as identified in the Guidelines, and promote those projects that have been funded. This may include the recipient's name and the amount of funding awarded, project details, agreed outcomes, and progress.

De-identified aggregated data may also be used for the purpose of managing and evaluating the Ignite Ideas initiative and inform government. Your personal information will also be used to provide the services outlined in the Guidelines and for the purposes of research, evaluation, promotion and monitoring of such services, and to improve and design services and programs.

Your personal information will not be otherwise used or disclosed unless authorised or required by law and will be managed in accordance with the *Information Privacy Act*. The provisions of the [Right to Information Act 2009](#) apply to documents in the possession of the Queensland Government.

The Queensland Government privacy policy can be found at: www.qld.gov.au/legal/privacy
