

Eligibility & Program Intent Check

* indicates a required field

Eligibility Check

Before proceeding with this application form, ensure that the Applicant Organisation and the proposed project meet each of the South East Queensland (SEQ) Innovation Economy Fund eligibility criteria as detailed in the [SEQ Innovation Economy Fund Round 2 Guidelines](#) (the Guidelines).

Eligible Applicant Organisation:

- is a legal entity
- has an active Australian Business Number (ABN)
- is registered for the Goods and Services Tax (GST)
- has a registered place of business and can demonstrate key business operations within an Eligible SEQ Local Government area
- has been trading for a minimum of 12 months OR there are Project Partners or evidence of identified third-party professional service providers involved in the proposal who can provide the necessary management, technical and financial capability to deliver the proposed project

Is the Applicant eligible per the above? *

- Yes No

For the purposes of this program, eligible SEQ Local Government areas are: Brisbane, Ipswich, Lockyer Valley, Logan, Moreton Bay, Noosa, Redland, Scenic Rim, Somerset, Sunshine Coast and Toowoomba.

What entity type is the Applicant Organisation? *

- a local council included in the 11 councils represented by the Council of Mayors (SEQ)
 an eligible Public or Private Sector Entity (see 5.1 of the Guidelines)

For the purposes of this program, the 11 eligible councils are: Brisbane, Ipswich, Lockyer Valley, Logan, Moreton Bay, Noosa, Redland, Scenic Rim, Somerset, Sunshine Coast and Toowoomba.

Are the Applicant and/or Project Partners providing a cash co-contribution of 50% of the total grant funding requested? *

- Yes No

Was the Applicant Organisation awarded funding under Round 1 of the Innovation Economy Fund? *

- Yes No

Recipients for Round 1 of the Innovation Economy Fund include: Griffith University, University of the Sunshine Coast, University of Queensland, Southern RNA Pty Ltd, Therapeutic Innovation Australia Limited, Translational Research Institute Pty Ltd ATF The Translational Research Institute Trust, Urban Utilities and Witmack Industrial Pty Ltd. Note that project partners of previously funded recipients are eligible to apply, provided they meet all other eligibility requirements.

Eligible projects include:

- refurbishment of existing buildings

SEQ Innovation Economy Fund Application Form - Round 2 2026

Form Preview

- acquisition and installation of plant and equipment
- a new stage or independent component of an existing capital project that will result in the establishment of operational infrastructure delivering innovative activity. The stage must contribute to accelerating high value, knowledge-intensive employment opportunities at the Project End Date and is not reliant on future un-funded stages of the development to achieve this;

Is the proposed project eligible? *

- Yes No

Eligible costs include:

- construction costs including:
 - all site works required as part of the construction
 - the costs of construction-related labour, materials and equipment hire
 - costs required to fully commission the project infrastructure
 - project management costs including remuneration of technical or professional staff, engaged by or employed by the successful applicant directly related to managing the construction of the proposed infrastructure (for example the salary of a project manager for the approved project) but excluding executive duties and overhead charges.
- costs required to purchase, install and/or commission fixed plant and equipment
- all costs associated with acknowledging the State and Australian Government funding contributions as set out in section 11.2 of the guidelines.

Is the grant funding sought limited to eligible costs? *

- Yes No

Program Intent

Will the proposed project be located at an existing innovation precinct? *

- Yes No

As defined in 5.4 of the guidelines

Will the proposed project be constructed or established on a project site which is owned by the applicant or for which there is evidence of a written in-principle agreement with the entity that owns the project site? *

- Yes No

Is the proposed project for the establishment of new or improved infrastructure for an existing innovation precinct, including the acquisition and installation of plant and equipment? *

- Yes No

Will the proposed project result in infrastructure located in one of the following local government areas: Brisbane, Ipswich, Lockyer Valley, Logan, Moreton Bay, Noosa, Redland, Scenic Rim, Somerset, Sunshine Coast, Toowoomba and the Gold Coast? *

- Yes No

Eligibility Declaration

Which Local Council Area is the Applicants registered place of business located in? *

The Applicant must have a registered place of business in one of the 11 listed local council areas.
Not sure of your area? Go to <https://www.ecq.qld.gov.au/electoral-boundaries/local-government-area-boundaries>

Applicant website address (if applicable)

Must be a URL.

Leave blank if the applicant organisation does not have a website.

Provide a brief overview of the Applicant's primary business objectives *

Word count:

Must be no more than 200 words.

Has the Applicant previously received funding through Queensland Government grant programs? *

Yes No

Applicant Organisation data

How many FTEs does the applicant employ? *

Is the applicant a female owned or female led business? *

Definition: A female business is one that is at least 50 per cent female owned and/or led. By 'led' we mean the people leading the organisation in roles such as CEO, Director, Executive. A female business does not necessarily need to be female founded.

Is the applicant an Indigenous business? *

Definition: Queensland Government defines an Indigenous business as one that is at least 50 per cent owned by an Aboriginal or Torres Strait Island person.

Which Local Council Area is the project located within? *

SEQ Innovation Economy Fund Application Form - Round 2 2026

Form Preview

Projects must be for the establishment of new or improved infrastructure in the 12 listed local council areas. Not sure of your area? Go to <https://www.ecq.qld.gov.au/electoral-boundaries/local-government-area-boundaries>

Is the applicant based outside of South East Queensland?

Yes

No

For the purposes of reporting "South East Queensland" is any location in the following council areas - Brisbane City, Moreton Bay Regional, Ipswich City, Logan City, Redland City, Gold Coast City, Scenic Rim, Somerset Regional, Lockyer Valley Regional, Sunshine Coast and Noosa Shire.

Applicant Contact Person

Multiple choices can be selected.

Project Funding

* indicates a required field

SEQ Innovation Economy Fund Application Form - Round 2 2026

Form Preview

PROJECT FUNDING IS FOR MINOR CAPITAL PROJECTS INCLUDING BUT NOT LIMITED TO REFURBISHMENTS AND ACQUISITION AND INSTALLATION OF PLANT AND EQUIPMENT.

APPLICANTS CAN REQUEST GRANT FUNDING FOR A MINIMUM OF \$500,000 (EXCLUDING GST) UP TO A MAXIMUM OF \$5,212,840 (EXCLUDING GST).

Identify and list the expected costs and funding sources that will be used to meet the delivery costs of the proposed project. This table is an overview of your budget. Under the Assessment Criteria 3 page, a detailed budget will need to be uploaded. This detailed budget should be the comprehensive list of all items under these categories.

Definitions:

- **Grant Funding Requested:** the grant amount you are requesting under this program. This must be for eligible project costs only (as defined under 6.2 of <<the guidelines>>)
- **Applicant Co-Contribution:** The cash amount that the Applicant is contributing.
- **Partner(s) Co-Contribution:** The cash amount that the Project Partner(s) are contributing. This is the total across all Project Partners.
- **Total Funding Cost:** This is a sum of the grant funding requested and the required cash co-contribution. The cash co-contribution can be from the Applicant, Project Partners or a mix of both
- **Other Government Funding:** Any other cash contributions from the Queensland or Australian government towards the project. This cannot form part of your co-contribution per 4.2 of the guidelines.
- **Other Contributions:** Any other cash contributions that have not been captured.
- **Total Project Cost:** All costs associated with delivering the capital project. This is a sum of the grant funding requested, the required cash co-contributions, other government funding and other contributions.

Please refer to section 4, 6.2 and 6.3 of the <<program guidelines>> for further information on co-contributions and eligible project costs

Note: All funding must be cash only, in-kind and non-cash contributions are not considered eligible contributions under this program. All figures should be GST excl.

⚠ Total Grant Funding Requested Issue ⚠

This program has a minimum funding amount of \$500,000 (excl GST) and a maximum of \$5,212,840 (excl GST).

Please adjust the table above to ensure you meet these requirements to be able to submit this application.

Project Funding Declaration

On behalf of the Applicant Organisation, I certify that: *

- the total co-contribution listed above does not include any other Australian or Queensland Government grant funding; and
- all funding sources have been confirmed

Full Name *

Date *

Must be a date.

Assessment Criterion 1

* indicates a required field

Significance of the funding opportunity to support the innovation economy

To meet this criterion, the applicant must demonstrate:

- the track record of the innovation precinct in contributing to the innovation economy
- how the new or improved infrastructure will deliver more high value, knowledge-intensive employment opportunities in SEQ
- how the new or improved infrastructure will increase the innovation precinct's capacity and capability to grow the innovation economy resulting in greater economic, environmental and/or social outcomes for the region.

Note: All criteria are equally weighted

What would best describe the Innovation activity at the Innovation Precinct where the new/improved infrastructure will be located. Please select from the following: *

- innovative solutions to existing problems
- new to world innovation
- innovation diffusion (a unique application of a technology that is significantly different to any previous innovation in the market)
- innovation in the Indigenous context - identified by the Applicant as innovative activities that build a community's economic opportunities and increases its participation in the innovation economy
- Other:

Select all that apply.

Which priority industry(s) and/or Innovation growth sector(s) will the proposed project address and leverage for future collaborative opportunities? *

- Defence and aerospace
- Energy transformation
- Agriculture and food processing innovation
- Biomedical
- Manufacturing across all sectors
- Innovative technology to advance industry using autonomous systems including unmanned aerial vehicles
- Innovative technology to advance industry using robotics and artificial intelligence
- Innovative technology to advance industry using nanotechnology
- Innovative technology to advance industry using biotechnology including synthetic biology technologies including mRNA
- Innovative technology to advance industry using quantum technologies
- Innovation in cyber technology, defence industries and space industries
- Innovative methods to improve agriculture and food including novel proteins and low emissions production systems (AgTech)

SEQ Innovation Economy Fund Application Form - Round 2 2026

Form Preview

- Innovative methods to achieve a sustainable future in a decarbonising economy by developing environmentally responsible mining practices including innovative methods to accelerate new economy/critical minerals industry
- Innovative methods to achieve a sustainable future in a decarbonising economy by managing Queensland's waste and pollution and developing the circular economy
- Innovative methods to achieve a sustainable future in a decarbonising economy by mitigating and preventing climate change
- Innovative methods to achieve a sustainable future in a decarbonising economy by developing sustainable energy solutions including technology supporting green hydrogen
- Innovative methods to achieve a sustainable future in a decarbonising economy by developing sustainable energy storage solutions
- Innovative methods to achieve a sustainable future in a decarbonising economy by developing sustainable water solutions
- Innovative methods to build resilience against future potential pandemic crises
- Innovative methods to build resilience against natural disasters e.g., droughts, floods, cyclones, and bushfires
- Innovative methods to drive sporting success (SportsTech)
- Other:

Select all that apply. Note: Innovation in any other area or industry that can demonstrate a track record of contributing to the innovation economy and meets the program's intent of delivering more high value, knowledge-intensive employment opportunities will also be considered.

Outline the Innovation Precinct's track record in contributing to the innovation economy including the development and commercialisation of innovative products, services or processes. *

Word count:

Must be no more than 500 words.

Outline why investment in the proposed project is needed from the Innovation Economy Fund including any barriers preventing investment to date *

Word count:

Must be no more than 500 words.

Outline how the new/improved infrastructure and/or plant & equipment, will increase the Innovation Precinct's capacity and capability to support and grow the innovation economy resulting in greater economic, environmental and/or social outcomes for the region? *

Word count:

Must be no more than 500 words.

Outline how the new/improved infrastructure and/or plant & equipment will build the Innovation Precinct's capability to increase innovation activity and deliver more high value, knowledge-intensive employment opportunities in SEQ? *

Word count:

Must be no more than 500 words.

How many estimated high value, knowledge-intensive jobs will be created at the Innovation Precinct after the proposed project has been completed? In your response please detail how this number has been calculated. *

Word count:

Must be no more than 200 words.

Assessment Criterion 2

* indicates a required field

Strength of the applicant to deliver the capital project

To meet this criterion, the applicant must demonstrate:

- the track record of the applicant and project partner/s to deliver the capital project
- the applicant and/or project partner/s have the capability, skills and experience required to deliver the capital project
- the applicant and/or project partner/s have the capacity and resourcing to deliver the capital project.

Note: All criteria are equally weighted

Outline the track record of the Applicant and/or Project Partners in delivering similar initiatives or infrastructure projects. *

Word count:

Must be no more than 500 words.

Outline the capability, skills and experience of the Applicant and/or Project Partners to be utilised in delivering the capital project, including sound project planning experience to manage and monitor the project. *

Word count:
Must be no more than 500 words.

Outline the capacity and resources of the Applicant and/or Project Partners to be utilised in delivering the capital project. *

Word count:
Must be no more than 500 words.

Assessment Criterion 3

* indicates a required field

Value and viability of the project

To meet this criterion, the applicant must demonstrate:

- the capital project is well planned and achievable and can be delivered within the nominated timeframe, and is able to be delivered within the project budget and is financially sound
- the application demonstrates that all required approvals are achievable within the timeframes and that any outstanding planning issues can be resolved
- the applicant and/or project partner/s have adequate staffing and risk management strategies to ensure successful delivery of the capital project by 30 June 2028.

Note: All criteria are equally weighted

In developing the project plan, detail the approach taken by the Applicant and/or Project Partners to address project contingencies so that the project will be delivered on time and within the project budget. *

Word count:
Must be no more than 500 words.

Upload your project plan (PDF Format only) *

Industry Classification and Jobs

* indicates a required field

Primary Industry Classification

The department collects data on industries that benefit from funded projects.

To assist with our reporting, please select the industry classification which will benefit from your proposed project.

Only one option can be selected from the dropdown list below.

To assist you with your options, refer to the Australian and New Zealand Standard Industrial Classification ([ANZSIC](#)) lookup link.

There are two levels within the ANZSIC hierarchy. Ensure you navigate through to the lowest level to choose an industry option.

Please select the primary industry classification that will benefit from your proposed project: *

[ANZSIC Lookup](#) Click on "Browse" then click on "Primary Industries Classification", then select an option by clicking the relevant industry (not the identifying letter) eg: Agriculture, Forestry & Fishing

Other Priority Industries

Priority Industries - refer to a niche or new industry per Queensland Government policies (Industry RoadMap) - To build our competitive strengths, diversify our economy and create the knowledge-based jobs of the future, the Queensland Government is driving innovation-led economic growth through increased collaboration between government, industry and research organisations.

The department collects data on industries that benefit from funded projects. To assist with our reporting, please select the Priority Industry which your proposed project will benefit from.

Only one option can be selected from the dropdown list below.

To assist you with your options, refer to the [Priority Industries Definitions](#) lookup link.

There are two levels within the Priority Industry hierarchy. Ensure you navigate through to the lowest level to choose an industry option.

Please select the priority industry that will benefit from your proposed project: *

[Link to Priority Industries Definitions](#) Click on "Browse", then click on "Priority Industries", then select an option by clicking on the relevant option (not the identifying number) eg: Advanced Manufacturing

Enabling Technologies

Enabling Technologies - separate list from the ANZSIC and Priority Industries - this is not an Industry category. This information is required to capture the type of Enabling Technologies used in activities regardless of the industry.

SEQ Innovation Economy Fund Application Form - Round 2 2026

Form Preview

The department collects data on industries that benefit from funded projects. To assist with our reporting, please select the Enabling Technologies that will be used in your project.

Only one option can be selected from the dropdown list below.

There are three levels within the Enabling Technologies hierarchy. Ensure you navigate through to the lowest level to choose a technology option.

Please specify the main enabling technology used in your project: *

Click on "Browse", then click on a "Sub Category", then select an option by clicking on relevant technology (not the identifying number) eg: Artificial Intelligence

Please advise your enabling technology: *

What is the main type of technology will you provide or use in your project? eg: Autonomous Systems. Input N/A if not applicable

Benefits to Queensland

The Queensland Government reports regularly on the jobs impact of the funding allocated to recipients and their projects.

For the purposes of this section, the following definitions will apply:

- **Job** - a job is any paid position within an organisation and includes permanent or temporary, full-time or part-time, short-term or long-term positions. **Does not include** consultants, public service positions or indirect jobs (jobs that flow on through supply chains).
- **Queensland-based Job** - jobs physically located in Queensland.
- **New Jobs** - number of new Queensland-based jobs expected to be created by the applicant or project partner/s as a direct result of investment during the term of the contract. **Does not include** any existing jobs (i.e. jobs already in existence / funded by the applicant or their partner/s prior to the commencement of the contract).
- **Future Jobs** - number of Queensland-based jobs predicted to be established within by the applicant or project partner/s as a direct result of the project up to three (3) years after the contract completion date.

△ **Ensure that the jobs figures your provide are realistic and achievable. Successful applicants will be required to provide evidence of actual jobs created during the term of the funding agreement.**

During the Contract Term

How many new Queensland-based jobs are likely to be created by the applicant or project partner/s as a direct result of the project during the contract term? *

See above definitions for further clarification

Future Jobs

How many future Queensland-based jobs are likely to be created within 3 years of contract completion by the applicant or project partner/s as a direct result of the project? *

See above definitions for further clarification

Applicant Declaration

* indicates a required field

On behalf of the Applicant Organisation:

- I certify that:
 - I am authorised to submit this application
 - the information I have supplied in this form is true, accurate and not misleading to the best of my knowledge
 - I have provided all mandatory documents as outlined in section 8.2 of the [guidelines](#)
 - I accept the guidelines, including its terms and conditions
 - I have read and accept the Terms and Conditions [Grant Agreement template](#).
- I acknowledge that
 - the Queensland Government may undertake any checks necessary to assess this application (subject to any written notification as to confidentiality).
 - the Applicant has not received any guarantees or assurances that its Application will be approved under the Fund or that assistance will be provided under the Fund
 - an offer of funding under the South East Queensland Innovation Economy Fund will be subject to the applicant organisation executing a Project Funding Agreement within 30 business days of being notified that the funding application has been successful.
 - the proposed project must commence within six months of approval and be completed no later than 30 June 2028.

Refer to the [Electronic Transaction \(Qld\) Act 2001](#) prior to acknowledging and accepting this declaration.

Privacy

The Department is collecting personal information such as the name, address and contact details of the applicant and business (including employees and partners), resume, employment and directorship, corporate officer history, payslips, asset and financial information and other information relevant to the application or provided by the applicant. This information is collected for the purpose of assessing and evaluating the application for funded projects, milestone reports, and otherwise the Department's function of supporting businesses and industry through innovation programs and grants.

Personal information may also be disclosed where required for purposes associated with undertaking assessment of the application, including due diligence enquiries. The email address provided will be used to communicate with the applicant about the application or program participation (if successful). For example, applicants may be contacted via email about participating in a survey, interview or focus group. Dependent upon the email service provider the applicant has chosen, this may result in personal information being transferred overseas.

The personal information provided may be provided to other relevant Australian and Queensland government Departments and Ministers, to publicly announce or publish as identified in the guidelines and promote those projects that have been funded. This may include the recipient's name and the amount of funding awarded, project details, agreed outcomes, and progress. De-identified aggregated data may also be used for the purpose of managing and evaluating the program and initiative and inform government. Personal information will also be used to provide the services outlined in the guidelines and application help guide, and for the purposes of research, evaluation, promotion, and monitoring of such services, and to improve and design services and programs.

The applicant's personal information will not be otherwise used or disclosed unless authorised or required by law and will be managed in accordance with the Information Privacy Act 2009. The provisions of the Right to Information Act 2009 apply to documents in the possession of the Queensland Government.
